# TRAINING TIPS

You will need to train your goat to walk forward beside you, to turn, and to stop to get ready for pet day.

## Coming to your Call

When teaching your pet goat to come to you, teach it with treats, each time you call it to come, either give it its normal milk or give it another treat and give it lots of pats.

## Leading

Put a small dog collar on your goat's neck and attach a dog lead. When you want your goat to move forwards with you start walking and pull softly on the lead, when your goat takes a step forward give it a treat. Repeat doing this until your goat understands what you are trying to do.

## **WEEK 2 - What my goat has been doing.**

**Is your goat feeding well?** Put a collar on your goat and start teaching it to lead for a short time after school each day. Make sure you pat it lots and brush it so it becomes your friend.

## **WEEK 5- What my goat has been doing.**

Are you getting pretty good at leading now?

Make sure you only brush your goat or wash with water, don't ever use shampoo on your goat as this will make its coat no longer waterproof.
